

## GSAT course on-line booking process

For course information please go to [www.trybyte.co.uk](http://www.trybyte.co.uk)

### Booking Process

Fill in the on-line booking form ensuring all required fields are entered - these are used for our student tracking and certification process.

Once you have filled in the form click “PayPal payment” or to cancel the process click “Clear Form”.  
**You do not need a PayPal account to use this service and there are no transaction bank charges.**

### Secure Banking Process

Once you have selected “PayPal Payment” you will be transferred to the PayPal secure on-line banking process. On completion, PayPal will automatically send you confirmation and a billing receipt. **TryByte do not receive any information regarding your personal credit card details.**

### Confirmation Process

Once TryByte have received confirmation from PayPal:

- Students will receive an acknowledgement email from TryByte with your on-line booking details and a help file giving an overview of the course functionality
- Students will receive via email a course log-on link
- Students will receive via email password confirmation

### Log-On Process

Click on the supplied log-on link you received via email (if you are unable to click on the link within the email, cut and paste it into your preferred browser), you will then be taken to the TryByte course server.

Once you have logged on to the server using the supplied details, you will be presented with two icons and a basic course guide.

### Student Support

TryByte have dedicated staff that monitor all course activity. We offer immediate support and assistance and are able to guide students through the course.

### Course Completion

Once the course is completed successfully, students are posted our official GSAT certificate containing a unique serial number and student identification (ID). This certificate confirms that the named person has successfully completed our DfT approved GSAT course and attained the required training standard as defined by the DfT.

*The original TryByte course certificate must be presented as proof of course completion to the relevant security department. The certificate remains the property of the UK DfT. TryByte keep a copy of all issued details.*
