

ONLY £20

Why is GSAT training so important? How does it affect you? How can you play a part in UK aviation security?

General Security Awareness Training (GSAT) Online

TryByte offer an online **GSAT** course that is more than a basic overview. Our course offers employees working at UK airports an understanding of the importance of aviation security and how the industry depends on their vigilance to keep us safe.

Our online GSAT course is designed round our existing face-to-face (classroom) GSAT course and is delivered via the web in small, easy to learn, byte-size presentations. By using the same content, video and tutor support, TryByte ensure that our students receive consistent and accurate training regardless of the delivery mechanism.

How to Book Online

1. Go to http://www.trybyte.co.uk/booking_details.html
2. Fill in the **online booking form**
3. Click **PayPal Secure Banking** (you do not need a PayPal account and this service is **FREE**)
4. Enter your card details into **PayPal**
5. **That's it!** You have now booked

You will receive logon details to your email account. When you complete the course TryByte post you your unique approved GSAT certificate.
